

LED Indicator

COMPACT - INDICATOR LIGHTS 24 V-AC/DC

This series Indicator light (pilot light) are used as indicating, accidental signals & other pilot signal of instrumental circuit in the area of electric power, telecommunication, machinery, marine, textile, printing, mining etc.

Technical Specifications:

Colors	Red
	Yellow
	Blue
	Green
	Amber
Rated voltage	AC/DC – 110V, 24V, 12V, 48V :- AC- 220V
Rated operational current	≤ 20mA
Service life	≥ 15000h
Brightness	≥ 60cd/m ²
Degree of protection	IP65
Ambient temperature	- 5°C ... + 70°C
Altitude	≤ 2000m
Relative Humidity	50% at +40°C 90% at +20°C

Dimensions :-
